**Mastering React Native** Eric Masiello, Jacob Friedmann

## Key Features

- Apply flexbox to get layout and build rich animations that bring your React Native application to life
- Integrate third-party libraries and develop customized components that run natively on iOS and Android platforms
- Combine React Native with Redux, Redux middleware, and a remote API to build scalable data-driven applications

## Book Description

React Native has completely revolutionized mobile development by empowering JavaScript developers to build world-class mobile apps that run natively on mobile platforms. This book will show you how to apply JavaScript and other front-end skills to build cross-platform React Native applications for iOS and Android using a single codebase.

This book will provide you with all the React Native building blocks necessary to become an expert. We'll give you a brief explanation of the numerous native components and APIs that come bundled with React Native including Images, Views, ListViews, WebViews, and much more. You will learn to utilize form inputs in React Native. You'll get an overview of Facebook's Flux data architecture and then apply Redux to manage data with a remote API. You will also learn to animate different parts of your application, as well as routing using React Native's navigation APIs.

By the end of the book, you will be able to build cutting-edge applications using the React Native framework.

## What you will learn

- Implement native React Native components and APIs
- Explore React's JSX syntax
- Manage data using Redux and Redux middleware
- Build applications with React Native on both iOS and Android platforms
- Perform animations in your applications using the animation APIs
- Understand routing and Navigator comparison
- Create your own Native module

## About the Author

### Eric Masiello –

Eric is a lead software engineer at Vistaprint Digital working in their marketing product family. He has worked primarily as a front-end developer for over 10 years and does freelance design and development for websites and mobile apps. Eric helps teach front-end topics at General Assembly and was a technical reviewer for Master React JS, a video by Packt Publishing.
