Free and Low-Cost Software for Scientists and Engineers/Book and Disk (Programming Tools for Scientists and Engineers Series) Harley Bjelland

This text describes the large amount of free and low-cost software available to scientists, engineers and mathematicians. It explains the computer system requirements for the software covered and provides simplified programs to help scientists and engineers perform some of their routine tasks. Extensive listings of software reduces the 20,000 available programs to a few hundred evaluated and recommended programs.
