Homo Deus

International Bestseller

From the author of the international bestseller *Sapiens: A Brief History of Humankind* comes an extraordinary new book that explores the future of the human species.

Yuval Noah Harari, author of the bestselling *Sapiens: A Brief History of Humankind*, envisions a not-too-distant world in which we face a new set of challenges. In *Homo Deus*, he examines our future with his trademark blend of science, history, philosophy and every discipline in between.

Homo Deus explores the projects, dreams and nightmares that will shape the twenty-first century – from overcoming death to creating artificial life. It asks the fundamental questions: Where do we go from here? And how will we protect this fragile world from our own destructive powers? This is the next stage of evolution. This is *Homo Deus*.

War is obsolete

You are more likely to commit suicide than be killed in conflict

Famine is disappearing

You are at more risk of obesity than starvation

Death is just a technical problem

Equality is out – but immortality is in

What does our future hold?
