**Neuropsychology: Clinical and Experimental Foundations** Lorin Elias, Deborah Saucier

*Neuropsychology* provides an overview of the fascinating clinical evidence that gave rise to the field of human neuropsychology and reviews the latest experimental evidence. Unlike most neuropsychology textbooks that discuss intact functional systems (such as the visual system) separately from discussions of what happens when the system is damaged, this text integrates the material, making it easier from which to teach, and much more engaging from which to learn.
