## **The Future of History** Alun Munslow

In this radical reassessment, Alun Munslow challenges conventional notions of history and offers a new vision of historical thinking and practice. Deploying a range of concepts such as scepticism, aesthetics, ethics, standpoint, irony, authorship and a new understanding of truth, *The Future of History* examines history as a form of knowledge in itself, arguing that in the future the multiple forms of its expression will be as significant as its content. This thought-provoking, challenging and unique book offers a way forward for history after postmodernism and is essential reading for anyone asking the question 'what is history?'.
