## **In the Days of the Comet** H. G. Wells

This is H. G. Wells' 1906 science fiction novel, "In the Days of the Comet". The strange vapours of a nearby comet begin to alter the air of Earth itself, engendering an incredible, long-lasting transformation in the way people think. An entertaining and thought-provoking novel, "In the Days of the Comet" represents the classic sci-fi that Wells is famous for, and it is not to be missed by fans and collectors of his seminal work. Herbert George Wells (1866 – 1946) was a prolific English writer who wrote in a variety of genres, including the novel, politics, history, and social commentary. Today, he is perhaps best remembered for his contributions to the science fiction genre thanks to such novels as "The Time Machine" (1895), "The Invisible Man" (1897), and "The War of the Worlds" (1898). Although never a winner, Wells was nominated for the Nobel Prize in Literature a total of four times. Many vintage books such as this are becoming increasingly scarce and expensive. We are republishing this book now in an affordable, modern, high-quality edition complete with a specially commissioned new biography of the author. First published in 1906.
