Seed Catalogues Smithsonian Institution

The Smithsonian Libraries have a unique collection that includes approximately 10,000 seed and nursery catalogues dating from 1830 to the present. The real gems of the collection date from 1830 to the 1930s and are both beautiful and important historical documents. Seed trade catalogues document the history of agricultural business in the United States, as well as provide a history of botany and plant varieties. Additionally, the seed catalogues are a window into the history of graphic arts in advertising and show changing fashions in flowers and vegetables. Seed Catalogues 2016 features a unique selection of covers from these catalogues, showcasing some of the most beautiful illustrations of their respective periods. Each month has a spacious grid with international holidays, moon phases and information about the seed companies and their products. There are sections at the back of the calendar to record emergency contact information and birthdays/anniversaries, and a full-page 3-year at-a-glance. This best-selling calendar makes a lovely gift for gardeners or lovers of vintage art. Earth friendly, printed with soya-based inks on FSC certified paper.
