Unitary Reflection Groups (Australian Mathematical Society Lecture Series)

Gustav I. Lehrer, Donald E. Taylor

Unitary Reflection Groups (Australian Mathematical Society Lecture Series) Gustav I. Lehrer, Donald E. Taylor

A complex reflection is a linear transformation which fixes each point in a hyperplane. Intuitively, it resembles the transformation an image undergoes when it is viewed through a kaleidoscope, or arrangement of mirrors. This book gives a complete classification of all groups of transformations of n -dimensional complex space which are generated by complex reflections, using the method of line systems. In particular: irreducible groups are studied in detail, and are identified with finite linear groups; reflection subgroups of reflection groups are completely classified; the theory of eigenspaces of elements of reflection groups is discussed fully; an appendix outlines links to representation theory, topology and mathematical physics. Containing over 100 exercises ranging in difficulty from elementary to research level, this book is ideal for honors and graduate students, or for researchers in algebra, topology and mathematical physics.

From reader reviews:

Guadalupe Eggleston:

Book is usually written, printed, or outlined for everything. You can understand everything you want by a guide. Book has a different type. We all know that that book is important point to bring us around the world. Next to that you can your reading ability was fluently. A reserve Unitary Reflection Groups (Australian Mathematical Society Lecture Series) will make you to be smarter. You can feel far more confidence if you can know about everything. But some of you think this open or reading a new book make you bored. It is not necessarily make you fun. Why they can be thought like that? Have you in search of best book or suited book with you?

Alan Sours:

Reading a guide tends to be new life style on this era globalization. With looking at you can get a lot of information that can give you benefit in your life. With book everyone in this world may share their idea. Ebooks can also inspire a lot of people. Many author can inspire all their reader with their story as well as their experience. Not only situation that share in the ebooks. But also they write about the information about something that you need case in point. How to get the good score toefl, or how to teach your kids, there are many kinds of book that you can get now. The authors nowadays always try to improve their ability in writing, they also doing some analysis before they write for their book. One of them is this Unitary Reflection Groups (Australian Mathematical Society Lecture Series).

William Farley:

A lot of people always spent their particular free time to vacation or even go to the outside with them friends and family or their friend. Do you know? Many a lot of people spent that they free time just watching TV, or perhaps playing video games all day long. If you need to try to find a new activity that is look different you can read the book. It is really fun to suit your needs. If you enjoy the book that you simply read you can spent 24 hours a day to reading a book. The book Unitary Reflection Groups (Australian Mathematical Society Lecture Series) it is rather good to read. There are a lot of people who recommended this book. These people were enjoying reading this book. In case you did not have enough space to create this book you can buy the actual e-book. You can m0ore effortlessly to read this book from the smart phone. The price is not too expensive but this book has high quality.

Keith Reese:

A lot of publication has printed but it differs from the others. You can get it by online on social media. You can choose the most effective book for you, science, comic, novel, or whatever simply by searching from it. It is referred to as of book Unitary Reflection Groups (Australian Mathematical Society Lecture Series). You can add your knowledge by it. Without departing the printed book, it can add your knowledge and make you actually happier to read. It is most essential that, you must aware about book. It can bring you from one

location to other place.
