"The science is settled" has become both a mantra for political activists who believe in man-made global warming and a club to beat down anyone who opposes their anti-industrial, anti-capitalism agenda. But is it true? This is the question that David Solway set out to answer in layman terms. His conclusion: the preponderance of evidence refutes the activist's dogma. In *Global Warning: The Trials of an Unsettled Science*, Solway presents the "science" in a style suited to the average citizen who wants nothing more than to learn the truth.
