**Intriguing Mathematical Problems (Dover Books on Mathematics)** Oswald Jacoby, William H. Benson

Amusing and informative in its approach to solving mathematical bafflers, this treasury of theories, games, puzzles and oddities of all kinds, compiled by one of the world's best card players (Jacoby) and an expert in mathematical recreations (Benson) will delight and fascinate math enthusiasts.

Although primarily intended to entertain, the wide variety of puzzles ? ranging from facile curiosities to very difficult intellectual exercises ? will challenge you to keep your mind going full steam. Each of the book's five sections ? "Fun with Numbers," "Fun with Letters," "The Odds: Explorations in Probability," "Where Inference and Reasoning Reign" and "The Answers Are Whole Numbers" ? is made up of approximately 30 problems, with solutions grouped at the end of each section. Math buffs will love testing their puzzle-solving skills on such challenging brainteasers as The Enterprising Snail, Mrs. Crabbe and the Bacon, The Fly and the Bicycles, The Lovesick Cockroaches, The Three Prisoners, Girls Should Live in Brooklyn, Who Was Executed?, Creaker vs. Roadhog, The Crossed Ladders, The Ancient Order of the Greens, and many more. Few of these problems require any advanced mathematical knowledge or prowess. You'll find that simply keeping your wits about you and your logical skills honed are all you need to enjoy a delightful and thought-provoking adventure in recreational mathematics. Foreword. 10 illustrations. 14 tables.

**From reader reviews:**

**Malcolm Lee:**

Now a day those who Living in the era just where everything reachable by connect to the internet and the resources inside it can be true or not need people to be aware of each facts they get. How individuals to be smart in acquiring any information nowadays? Of course the correct answer is reading a book. Looking at a book can help people out of this uncertainty Information specifically this Intriguing Mathematical Problems (Dover Books on Mathematics) book because this book offers you rich details and knowledge. Of course the details in this book hundred per-cent guarantees there is no doubt in it as you know.

**Timmy Gallegos:**

Information is provisions for those to get better life, information these days can get by anyone at everywhere. The information can be a knowledge or any news even a huge concern. What people must be consider any time those information which is inside the former life are challenging to be find than now could be taking seriously which one works to believe or which one the resource are convinced. If you get the unstable resource then you understand it as your main information there will be huge disadvantage for you. All those possibilities will not happen with you if you take Intriguing Mathematical Problems (Dover Books on Mathematics) as the daily resource information.

**Ruth Santiago:**

A lot of people always spent their free time to vacation or perhaps go to the outside with them family members or their friend. Do you realize? Many a lot of people spent that they free time just watching TV, or perhaps playing video games all day long. If you would like try to find a new activity that's look different you can read a new book. It is really fun in your case. If you enjoy the book you read you can spent all day every day to reading a publication. The book Intriguing Mathematical Problems (Dover Books on Mathematics) it is extremely good to read. There are a lot of people who recommended this book. These folks were enjoying reading this book. In the event you did not have enough space to deliver this book you can buy typically the e-book. You can m0ore quickly to read this book from a smart phone. The price is not too expensive but this book offers high quality.

**Irene Carpenter:**

Playing with family in a park, coming to see the water world or hanging out with good friends is thing that usually you have done when you have spare time, and then why you don't try issue that really opposite from that. Just one activity that make you not experiencing tired but still relaxing, trilling like on roller coaster you already been ride on and with addition associated with. Even you love Intriguing Mathematical Problems (Dover Books on Mathematics), you are able to enjoy both. It is excellent combination right, you still wish to miss it? What kind of hangout type is it? Oh can happen its mind hangout folks. What? Still don't have it, oh come on its named reading friends.
