Geographic Information Systems and Science

Paul A. Longley, David J. Maguire, Michael Goodchild, David W. Rhind

Geographic Information Systems and Science Paul A. Longley, David J. Maguire, Michael Goodchild, David W. Rhind

This landmark text captures and redefines the richness and diversity of GIS, in an accessible form. It presents a clearly-defined path to a world of learning about GIS, using the Internet and closely-coupled reference sources. It is richly produced and illustrated unlike any other in the field, with over 300 full colour illustrations.

Unique in several ways, it presents comprehensive treatments of:

- Geographic Information Science - the scientific context to GIS, technical content and geographic implications
- The real value of GIS - illustrated using real world applications. Treatments emphasize operational, tactical and strategic issues
- The impact of Internet GIS on interdisciplinary science and society
- The pivotal role of GIS as a business driver in the information age - including the role of GIS as a business asset and the operational dynamics of its use in practice

Learning resources include:

- Links to ESRI's Virtual Campus which includes modules specially written to accompany the book (<http://campus.esri.com>)
- Instructor's Manual to assist in the planning and use of this text in a variety of academic environments (<http://www.wiley.co.uk/gis>)
- Free on-line access to relevant chapters of the first edition of the two-volume 'Big Book 1' (<http://www.wiley.co.uk/gis>)
- Questions for further study at the end of each chapter (<http://www.wiley.co.uk/gis>)
- Powerpoint slides to assist teaching

From reader reviews:

Sandra Maes:

What do you think about book? It is just for students since they're still students or it for all people in the world, exactly what the best subject for that? Merely you can be answered for that question above. Every person has several personality and hobby for every other. Don't to be forced someone or something that they don't need do that. You must know how great as well as important the book Geographic Information Systems and Science. All type of book is it possible to see on many solutions. You can look for the internet sources or other social media.

Shannon Thompson:

The reason why? Because this Geographic Information Systems and Science is an unordinary book that the inside of the book waiting for you to snap that but latter it will shock you with the secret the idea inside. Reading this book close to it was fantastic author who all write the book in such remarkable way makes the content inside easier to understand, entertaining approach but still convey the meaning totally. So , it is good for you for not hesitating having this any longer or you going to regret it. This unique book will give you a lot of rewards than the other book get such as help improving your ability and your critical thinking method. So , still want to delay having that book? If I were you I will go to the guide store hurriedly.

Ruth Little:

Do you like reading a e-book? Confuse to looking for your preferred book? Or your book has been rare? Why so many issue for the book? But any kind of people feel that they enjoy regarding reading. Some people likes reading, not only science book but also novel and Geographic Information Systems and Science or even others sources were given know-how for you. After you know how the good a book, you feel want to read more and more. Science book was created for teacher as well as students especially. Those ebooks are helping them to increase their knowledge. In additional case, beside science e-book, any other book likes Geographic Information Systems and Science to make your spare time more colorful. Many types of book like this.

Christopher Parker:

A lot of book has printed but it takes a different approach. You can get it by internet on social media. You can choose the very best book for you, science, amusing, novel, or whatever by searching from it. It is referred to as of book Geographic Information Systems and Science. Contain your knowledge by it. Without leaving the printed book, it could possibly add your knowledge and make a person happier to read. It is most significant that, you must aware about publication. It can bring you from one place to other place.
