The Dominant Culture examines the culture of Israel during the period of the Judges. Everyone is under the influence of a culture. Every culture has cultural elites, the people who have the greatest influence over a particular culture. Philosophers, theologians, educators, politicians, actors, or anyone of celebrity status will influence culture with their worldviews. The time of the Judges in ancient Israel is relevant to our postmodern culture in the United States. Unless Christians understand the historical principals that caused spiritual and cultural devastation for generation after generation, they will repeat history and lose their culture. The timeliness of this book provides the framework for cultural recovery.
