Advancements in Information Technology and Internet Security Sagar S. Jambhorkar, Dr. Arpita Gopal, Chandrani Singh

The National Conference on **Advancements in Information Technology and Internet Security**, AITIS-2008 was organized by the Department of MCA, Sinhgad Institute of Business Administration and Research, Pune, India. This conference provided a forum for the researchers and professionals from Industries, Research & Development sector, Educational Institutions, Government Organizations, Universities and Post Graduate students to share and disseminate their innovative and pioneering views about recent trends and developments in the areas of Information Technology & Internet Security. This conference covered almost all the state-of-the-art technology areas and aims to establish and strengthen relationships in research & development, through networking and collaboration of members and participants.

We are delighted to report that 110 papers had been received from 11 different states, out of which 50 papers were finally selected for presentations as full papers. The review process was a double blind system with evaluations by two different reviewers, followed by a final internal review. The papers were accepted based on relevance of the topic, originality, novelty of the work done and overall appeal of the paper. The conference covers areas related to Biometrics, Digital Image and Signal Processing, Pattern Recognition, Human Computer Interaction (HCI), E-Commerce, Digital Signal Processing, Advanced Networking and Security, Data Mining, Knowledge Management, Grid Computing, Parallel Computing, Bioinformatics, Internet Security etc. This volume contains selected research papers presented in this national conference hosted by the Department of Computer Applications of SIBAR.

This collection of papers will become a valuable archive for researchers and practitioners for years to come.
