This volume is a collection of immunohematology and transfusion medicine cases, comprised of clinical vignettes and antibody panels with questions based on each case, arranged in a workbook format. The cases are based on real patient problems which are typically encountered and covers a number of common issues and challenging problems in blood banking and transfusion practice. Discussion and resolution of each case is provided in a separate answer section, including up-to-date information on pertinent advances in the field.

Written by experts in the field, *Immunohematology and Transfusion Medicine: A Case Study Approach* provides an interactive tool to help make blood banking and transfusion medicine memorable, practical, and relevant to residents and fellows.
