**Research Methodology: A Step-by-Step Guide for Beginners** Ranjit Kumar

**Lecturers - request an e-inspection copy of this text** or contact your **local SAGE representative** to discuss your course needs.

Research Methodology: A Step by Step Guide for Beginners has been written specifically for those with no previous experience of research or research methodology. Written in a logical and accessible style and providing helpful techniques and examples, it breaks the process of designing and doing a research project into eight manageable operational steps. The book guides you through your project from beginning to end by offering practical advice on:

- formulating a research question
- ethical considerations
- carrying out a literature review
- choosing a research design
- selecting a sample
- collecting and analysing qualitative and quantitative data
- writing a research report.

The book is essential reading for undergraduate and postgraduate students in the social sciences embarking on quantitative or qualitative research projects.

**Available with *Perusall*—an eBook that makes it easier to prepare for class**

*Perusall* is an award-winning eBook platform featuring social annotation tools that allow students and instructors to collaboratively mark up and discuss their SAGE textbook.
