SeaWise Emergency Action Guide and Safety Checklists for Motor Yachts Zvi Richard Dor-Ner, Zvi Frank

SeaWise for Motor Yachts provides step-by-step, concise, reliable plans for emergencies at sea that require fast and effective action. Designed for functionality, it has two sides: an Emergency Action Guide with instructions for specific problems, from fire and floods to man overboard and dangerous weather; and Safety Checklists, used to prepare the vessel and crew for voyages. A tab-based flip book design makes the guide easy to use for fast and effective responses, with 26 multi-tabbed sections covering a wide range of topics and situations. Some sections allow boat owners to customize the information to their craft. The information is based on extensive research and personal experience. This guide, the first of its kind, is printed on waterproof paper, packaged in a plastic case with mounting strips, and ready to be placed in an easily accessible location. It is designed for both professional and recreational vessels; a companion guide is available for sailing yachts.
