Network Perimeter Security: Building Defense In-Depth Cliff Riggs

Today's network administrators are fully aware of the importance of security; unfortunately, they have neither the time nor the resources to be full-time InfoSec experts. Oftentimes quick, temporary security fixes are the most that can be expected. The majority of security books on the market are also of little help. They are either targeted toward individuals pursuing security certifications or toward those interested in hacker methods. These overly detailed volumes fail to deliver the easily referenced tactical information needed to provide maximum security within the constraints of time and budget.

Network Perimeter Security: Building Defense In-Depth reveals how you can evaluate the security needs of your network, develop a security policy for your company, and create a budget based upon that policy. It assists you in designing the security model, and outlines the testing process.

Through the concepts and case studies presented in this book, you will learn to build a comprehensive perimeter defense architecture based upon multiple layers of protection, with expert recommendations for configuring firewalls, routers, intrusion detection system, and other security tools and network components. This detailed volume enables you to secure your network on time, within budget, and without having to pursue attain a security certification.

From reader reviews:

Gina Melton:

Have you spare time for just a day? What do you do when you have much more or little spare time? Yeah, you can choose the suitable activity for spend your time. Any person spent their own spare time to take a stroll, shopping, or went to the Mall. How about open or read a book allowed Network Perimeter Security: Building Defense In-Depth? Maybe it is to be best activity for you. You already know beside you can spend your time using your favorite's book, you can smarter than before. Do you agree with their opinion or you have some other opinion?

Robert Thomas:

What do you with regards to book? It is not important along? Or just adding material when you really need something to explain what your own problem? How about your free time? Or are you busy man or woman? If you don't have spare time to do others business, it is make you feel bored faster. And you have time? What did you do? All people has many questions above. They have to answer that question mainly because just their can do that. It said that about publication. Book is familiar in each person. Yes, it is right. Because start from on pre-school until university need this particular Network Perimeter Security: Building Defense In-Depth to read.

Amanda Despain:

Reading a guide tends to be new life style on this era globalization. With studying you can get a lot of information that will give you benefit in your life. Having book everyone in this world can easily share their idea. Guides can also inspire a lot of people. A great deal of author can inspire all their reader with their story or their experience. Not only the storyline that share in the textbooks. But also they write about the ability about something that you need instance. How to get the good score toefl, or how to teach your kids, there are many kinds of book that exist now. The authors these days always try to improve their ability in writing, they also doing some investigation before they write with their book. One of them is this Network Perimeter Security: Building Defense In-Depth.

Ralph Rodriguez:

A lot of people said that they feel uninterested when they reading a publication. They are directly felt it when they get a half parts of the book. You can choose the actual book Network Perimeter Security: Building Defense In-Depth to make your personal reading is interesting. Your own skill of reading skill is developing when you similar to reading. Try to choose basic book to make you enjoy to see it and mingle the idea about book and studying especially. It is to be first opinion for you to like to open up a book and read it. Beside that the publication Network Perimeter Security: Building Defense In-Depth can to be your new friend when you're experience alone and confuse with what must you're doing of that time.
