Metal clay is the most exciting new material in jewelry design today: the procedures for molding and shaping are simple, the tools few, and the results stunning. CeCe Wire, a leader in the field, details all the newest innovations and clays, as well as the basics for beginners. She includes every form and formula, plus an extensive array of cutting-edge techniques that range from stone-setting to surface embellishment. Numerous color photos showcase diverse possibilities, including enameling methods such as champlevé, inlaying with epoxy resin, and silk screening. Twenty-five projects—some easy, some more advanced—include gorgeous beads, a bold contemporary brooch, and stacked rings made from silver and 22-karat gold.
