"The Microsoft Windows NT 4.0 Security" offers the MIS professional, network architect, administrator, or webmaster a set of guidelines for securing, auditing, and controlling networks running on Windows NT 4.0. A computer security plan that is well thought out, implemented, and monitored makes authorized use of network computers easy and unauthorized use or accidental damage difficult if not impossible. Issues are introduced and explained conceptually, then the reader is walked through tested procedures for establishing a secure installation. Includes 120-day evaluation copy Microsoft Internet Information Server on CD
