## VS-931 ANTISUBMARINE SQUADRON J. ROBERT WAGNER

VS-931 Antisubmarine Squadron is a true story which describes the intensive training and tactics used in the search for enemy submarines during the Korean War. The danger of carrier operations, training missions and problems with equipment is born out by numerous close calls and crashes. Sometimes these unpredictable mishaps resulted in injury or death of carrier personnel and flight crews. The humor among squadron personnel often served as relief from the intense, long hour teamwork that was continuously required. When the job at hand was finally completed, service personnel always looked for some way to have fun.
