## **Sum and Substance Audio on Wills and Trusts** Gerry Beyer

This set of audio CDs is designed to enhance your understanding of the topics covered in courses in wills, trusts, and estates. The discussion begins with intestate succession, that is, how a person's property is distributed when he or she dies without a will, with special attention given to the issues that arise in determining whether a person qualifies as an heir. Attention then turns to wills, with coverage divided into sections dealing with the requirements of a valid will, changing circumstances after will execution, will revocation, will interpretation and construction, and will contests. The process of administering a decedent's estate is covered next. Trusts are covered in detail starting with how trusts operate and why they are popular, the creation of trusts, trust administration, and trust enforcement. The CDs also cover related subjects such as disability planning, non-probate assets, the basics of estate planning, resulting and constructive trusts, and examination strategies.
