Controversial, provocative and poignantly humorous, American artist Andrea Fraser (born 1965) is one of the most influential and pioneering figures of her generation and has been captivating a devoted audience for more than 30 years. She employs a wide range of media, including prints, photographs, installations and performances as well as texts and videos, time and again reformulating the same fundamental questions: what do we want from art, how do we view it and how does the art market distribute it?

This richly illustrated catalogue presents a full overview of the artist's career for the first time. It assembles the early *Four Posters* (1984) as well as her famous performances such as *Museum Highlights* (1989), *Inaugural Speech* (1997) and *Official Welcome* (2001/03), linking them with her most recent videos.
