Healing Cancer with Qigong: One man's search for healing and love in curing his cancer with complementary therapy Sat Hon MFA

Healing cancer with Qigong by complementary therapy: It is healing the bodymind and spirit from a subterranean plane. That means from a plane which is not apparent at a sensory or even conceptual level. Our bodies ultimately are fields of energy, consciousness and possess within a potent spontaneous healing supremacy over pathogens and diseases. Complementary Therapy involves a shift in the fields of bodymind and spirit matrix, so as to bring about a rectification on a state of dis-ease that has gone out of balance. Consequently Complementary Healing involves interweaving all the strands of healing modalities: oncological treatments, qigong, meditation, nutrition, acupuncture and Traditional Chinese Medicine converging into a tidal force of cleansing this most insidious dark assassin, cancer. If I have gone further it is by standing on the shoulders of great pioneers of Qigong healers and thus, it is with a deep sense of gratitude and humility that I share with you my own healing journey in the macabre battleground of cancer. May this book benefit all beings in their struggle with the darkness of diseases and emerge victorious into the light of healing approaches.
