**The Times Desktop Atlas of the World: Representing the Earth with Authority, Accuracy and Style (The Times Atlases)** Times UK

**A complete world reference atlas in a convenient and easy to use format, perfect for everyday look-up at home or work**

Retaining the authority, style, and detail of the larger *Times* atlases, this excellent world atlas has been fully revised to bring all the maps and geographical information completely up-to-date. The newly independent country of South Sudan is a significant change to the atlas. As with all the atlases in the *Times* range, it offers great authority, outstanding quality, and attention to detail. Detailed updated maps in the distinctive and respected *Times* style provide balanced, systematic coverage of all parts of the world. Each continent is introduced by a political map showing individual countries, followed by regional maps showing towns and cities, roads, railways, international boundaries, and topography. The introductory section covers major world geographical themes—from earthquakes and volcanoes to population growth, communications, and climate change—giving a global snapshot of our contemporary world. The extensive index to more than 25,000 place names illustrates the scope of this world atlas, and there is also a geographical reference section with flags, statistics, and facts for all of the world's states and territories.
