Betrayal. Pirates. Robot Battles. Chihuahua. In 2962, Alexa Jane Alden has been marking time until she can return to her real life—a thousand years ago. Her vigil ends abruptly, however, when she's informed about events in that far back time. But really, what's a little deception among friends? Particularly when compared with the demand that she comply with the mandate of rogue artificial intelligence KAG8. If Alexa forsakes the Master SivSatyananda—and thus the Crystal Ceres—for KAG8, she scuttles a project centuries in the making, and dooms humanity. If she doesn't? Her loved ones pay dearly. The answer: destroy KAG8, no matter the consequences. Filled with metaphysical secrets, ruthless space raiders, and a robotic Chihuahua she calls Bill, Jaguar Transit is a SciFi adventure that's all about doing the right thing, regardless of cost.
