Selected Contemporary Issues in the Law of the Sea (Publications on Ocean Development) Clive R. Symmons, *Trinity College, Dublin*

Drawing on papers presented at Trinity College, Dublin, in 2010, *Selected Contemporary Issues in the Law of the Sea* provides a cohesive discussion on various challenges involved with the law of the sea.

International experts cover topics such as straight baselines, high seas/EEZ jurisdiction, the definition of, and jurisdiction over, piracy and submissions to the CLCS relating to outer continental shelf claims in disputed areas. In addition, *Selected Contemporary Issues in the Law of the Sea* delves into topics seemingly neglected in contemporary literature. The permissible use of artificial constructions as basepoints is discussed, for example, as are human rights issues involved in boarding non-flag ships; and in the context of piracy, issues such as the Japanese and NGO (Greenpeace) attitudes to current interventions (so-called eco-piracy) by NGO ships to prevent Japanese whaling activities in Antarctic waters.
